## Outshine the Darkness of Alzheimer's

The Longest Day is the day with the most light-the summer solstice. On June 20, people from across the world united to bring awareness to the darkness of Alzheimer's. Together, we use our passion to raise awareness about the disease and show support for not only those living with Alzheimer's, but those who care for them.

*"The longest day is all about love: love for our family members, neighbors and friends living with Alzheimer's disease, and for their heroic caregivers, whose days are truly never ending."*
